SUBJECT: Situation Maps

REMARKS:

Per our 20 November conversation, attached for your private information and use is one copy (i.e., set) of the map package requested by Dr. Kissinger and delivered to his office on Saturday, 18 November. As indicated in the explanatory memorandum, these maps were prepared with the much appreciated assistance of our colleagues in DIA and reflect coordinated, agreed data and intelligence judgments. For obvious reasons, we have made no external distribution of this package except for the attached set being sent to you and one set being sent to Admiral de Poix.
